Die Matrix zeigt, welche Desinfektionsmittel zur Reinigung und Flächendesinfektion von skai® Polstermaterialien empfehlenswert, bedingt empfehlenswert oder nicht zu empfehlen sind. Diese Einstufungen beruhen auf Erkenntnissen aus einer umfangreichen Testreihe mit den aufgeführten Materialien.

- Desinfektionsmittel, die zur Reinigung und Flächendesinfektion von skai® Polstermaterial empfohlen werden.
- Desinfektionsmittel, die zur Reinigung und Flächendesinfektion von skai® Polstermaterial bedingt empfohlen werden. So gekennzeichnete Desinfektionsmittel bitte vor dem großflächigen Einsatz an einer verdeckten Stelle prüfen. Falls möglich verdünnt anwenden und nicht über einen längeren Zeitraum einwirken lassen.
- Desinfektionsmittel, die zur Reinigung und Flächendesinfektion von skai® Polstermaterial nicht zu empfehlen sind.

Anmerkung: Die Zusammensetzung der Desinfektionsmittel entspricht dem Stand Oktober 2018. Für etwaige Änderungen an der Formulierung der Desinfektionsmittel durch die Hersteller kann seitens der Konrad Homschuch AG keine Gewähr übernommen werden.

The matrix shows which disinfectants are recommended, conditionally recommended or not recommended for cleaning and disinfecting skai® upholstery materials. These classifications are based on the results of an extensive series of tests on the listed materials.

- Disinfectants recommended for cleaning and disinfecting skai® upholstery material.
- Disinfectants which are only conditionally recommended for cleaning and disinfecting skai® upholstery material. Disinfectants marked as such should be tested beforehand on a hidden section of the material. If possible, use diluted and do not allow them to act for a prolonged period.
- Disinfectants not recommended for cleaning and disinfecting skai® upholstery material.

Note: Information on the composition of disinfectants is current as of Octobre 2018. Konrad Homschuch AG cannot be held responsible for any changes in the formulation of disinfectants by the manufacturer.
